

NICOLE LURIE, M.D., M.S.P.H.

Assistant Secretary for Preparedness and Response
RADM, U.S. Public Health Service
U.S. Department of Health and Human Services

Dr. Lurie is Assistant Secretary for Preparedness and Response at the US Department of Health and Human Services at HHS. Prior to that, she was Senior Natural Scientist and the Paul O' Neill Alcoa Professor of Health Policy at the RAND Corporation. There she directed RAND's public health and preparedness work as well as RAND's Center for Population Health and Health Disparities. She has previously served in federal government, as Principal Deputy Assistant Secretary of Health in the US Department of Health and Human Services; in state government, as Medical Advisor to the Commissioner at the Minnesota Department of Health; and in academia, as Professor in the University of Minnesota Schools of Medicine and Public Health. Dr. Lurie has a long history in the health services research field, primarily in the areas of access to and quality of care, managed care, mental health, prevention, public health infrastructure and preparedness and health disparities.

Dr. Lurie attended college and medical school at the University of Pennsylvania, and completed her residency and MSPH at UCLA, where she was also a Robert Wood Johnson Foundation Clinical Scholar. She serves as Senior Editor for *Health Services Research* and has served on editorial boards and as a reviewer for numerous journals. She has served on the council and was President of the Society of General Internal Medicine, is currently on the board of directors for the Academy of Health Services Research, and has served on multiple other national committees. She is the recipient of numerous awards, including the AHSR Young Investigator Award, the Nellie Westerman Prize for Research in Ethics, the Heroine in Health Care Award, the University of Pennsylvania School of Medicine's Distinguished Alumni Award, and is a member of the Institute of Medicine.

Finally, Dr. Lurie continues to practice clinical medicine in the health care safety net in Washington, DC.
